"There's a way to do it better- find it."

Education

Deutschkurs für den Beruf (Level B2)

Berliner Volkshochschule

Berlin, Germany

Jul. 2025 - Jan. 2026

M.Sc. Global Production Engineering

Technische Universität Berlin | Grade- 1,9

Berlin, Germany

Oct. 2019 - Jun. 2023

- Participation in a professional German language course to improve skills in a professional context, including communication and writing
- Quality Management (Six Sigma, Integrated Management Systems)
- International & Intercultural Project Management (Agile Methodology)
- Renewable Power Technologies
- Lean Management (Industry 4.0)

Bachelor's in Mechanical Engineering

Savitribai Phule Pune University

Ahmednagar, India

Sep. 2014 - Jun. 2017

- Energy Storage Systems
- Manufacturing Process

Work Experience

Freelancer – Project & Process Management Consultant

Service Provider – Logistics & Relocation Services (Germany)

Remote

Oct. 2025 - Present

- Designed and optimized an **end-to-end process landscape** across the service lifecycle, focusing on handovers, and process transparency
- Modeled and standardized core and support processes (Sales, Operations, Scheduling, Billing) using **BPMN 2.0** as a foundation for ERP
- Defined **process KPIs and governance structures** to monitor efficiency, service quality, and operational performance
- Identified **handover inefficiencies, media breaks, and scalability bottlenecks** within existing operational processes
- Conducted **process workshops**, requirements analysis, and iterative process reviews to drive sustainable process improvements

Global Quality Manager

sonnen GmbH

Berlin, Germany

May. 2023 - May. 2025

Business Process Management:

- Designed and implemented a **company-wide Business Process Management framework in Confluence**, integrating **ISO 9001-based Quality Management System** requirements
- Standardized and governed **end-to-end business processes** to ensure transparency, compliance, and process ownership across functions
- Analyzed, modeled, and optimized global processes (**BPMN 2.0**) in close collaboration with business units
- Defined process documentation standards and governance to support **ERP- and SAP-aligned process execution**

Project Management:

- Led **cross-functional process improvement projects** from concept to implementation, coordinating international stakeholders
- Planned project activities, timelines, and deliverables, ensuring alignment with business priorities and transformation goals
- Supported **change management activities**, including communication, training, and stakeholder enablement for new processes

Internal Audits:

- Planned, executed, and followed up on **internal audits** in line with ISO 9001, including documentation and corrective actions
- Supported **external audits** and ensured audit readiness through structured process documentation and evidence management
- Collaborated with international teams to align audit findings, corrective measures, and compliance requirements

KPI System & Risk Management:

- Established a **process KPI system** to monitor quality, efficiency, and operational performance across functions
- Conducted **risk assessments** and facilitated review meetings to identify and mitigate process and quality risks
- Developed and maintained **Power BI dashboards** to visualize process and quality data for management decision-making

Production & Operation Engineer

C-Tech Engineers Pvt. Ltd.

Pune, India

Aug. 2018 - Aug. 2019

- Led cross-functional initiatives to streamline **manufacturing and quality control processes**, aligning production KPIs with business objectives
- Executed **Six Sigma (DMAIC) projects**, reducing defect rates by 25% and improving process capability
- Introduced data-based monitoring systems using **SPC techniques** to enhance decision-making in shop floor operations
- Collaborated with senior management to identify **efficiency bottlenecks** and propose automation solutions for productivity improvement
- Trained operators on process adherence and quality awareness, fostering a culture of continuous improvement and accountability

Graduate Engineer Trainee

Badve Engineering Limited

Pune, India

Aug. 2017 - Jul. 2018

- Led a **raw material optimization project**, resulting in €500K+ annual savings
- Collaborated with cross-functional teams to deploy **Lean Manufacturing tools (Kaizen, SMED, 5S)**, reducing changeover time by 30%
- Developed standard work procedures and **visual management systems** to align daily operations with plant KPIs
- Supported cost-reduction initiatives through **process reengineering** and supplier collaboration, improving material utilization efficiency.

Internships

Master Thesis, Quality Management & Methods (Supply Chain Quality)

Ovar, Portugal

Bosch Security Systems S.A. | Grade- 1,3

Jan. 2022 - Jun. 2022

- Created detailed process audits and process maps for supply chain operations, closing 15+ **process audit gaps** within 6 months
- Digitalized internal warehouse processes**, resulting in a 50% increase in inventory accuracy and 20% throughput gain
- Redesigned and standardized claim management procedures to align with IATF 16949, reducing response time by 35%
- Assisted in PFMEA workshops for risk mitigation during new product development

Internship, Quality Management & Methods

München, Germany

Bosch Sicherheitssysteme GmbH (Building Technologies)

Jun. 2021 - Nov. 2021

- Updated and standardized **QMS documentation**, aligning operational procedures with ISO 9001 requirements
- Supported **internal audit preparation** across Purchasing, R&D, and Production, ensuring audit readiness and stakeholder engagement
- Automated return products tracking and audit processes using **Excel VBA (low-code automation)**, cutting manual effort by 70%

Bachelor Thesis

Ahmednagar, India

Larsen & Toubro

Aug. 2016 - Mar. 2017

- Designed and implemented a fixture for robotic assembly, improving OEE by 14.63% and reducing cycle time

Skills

Project Management Schedule and cost tracking, risk-based planning, documentation control, execution-phase governance

Process Management Process mapping (BPMN 2.0), continuous improvement, Integrated Management Systems (ISO 9001)

Data & Performance KPI definition, Power BI dashboards, quality and process performance monitoring, management reporting

Digital Tools Confluence, JIRA, Signavio, SAP, MIRO, SharePoint, Tableau, Power BI

Languages English (C2), German (B2), Native: Hindi, Marathi, Marwari

Certificates

2025	Tableau 2024.1: Essential Training , National Association of State Boards of Accountancy (NASBA)	Berlin, Deutschland
2021	Method Time Measurement- Universal Analyzing System , MTM Association e.V. Standards and Research	Hamburg, Germany
2021	Method Time Measurement-1 , MTM Association e.V. Standards and Research	Hamburg, Germany
2020	Six Sigma Green Belt (acc. to ISO 13053:2011) , Chair of Quality Science, Technische Universität Berlin	Berlin, Germany
2020	Internal Auditor (acc. to ISO 19011:2018) , Technische Universität Berlin	Berlin, Germany
